EPEE FENCING IN 1901

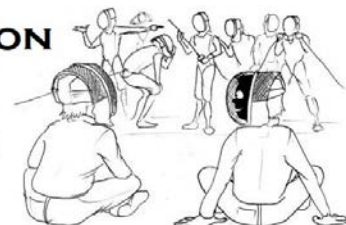

This article from « Le Sport Universel Illustré » describes a tournament that took place in Paris in 1901. Competitors used a needle type tip mounted at the end of their weapons and fenced bare chested.

Mr René Lacroix (in the picture) won the pool with a few scars, while Mr Armand Lusciez almost got killed but survived!

Needless to say, don't try this it a home!
